

LINOR MOR

PMO · Project Management & Control · Industrial Engineering

Ramat Gan, Israel · molinor123@gmail.com · linkedin.com/in/linormor

Summary

Project management & control professional with an Industrial Engineering & Management backbone. I run roadmaps, milestones and stakeholder alignment; build KPI dashboards and management reports; and analyse data to catch deviations early. Proven record (20x growth, process improvements), strong Excel and Jira. Seeking a PMO / project-management role in Israeli tech.

Experience

Buyverse (acquired by Keyz)

2025 — 2026

Product Manager

- Owned the product roadmap and sprint cycles in Jira, aligning dev, design and marketing around clear delivery milestones.
- Built the KPI framework and executive dashboard in Looker Studio — growth, activation, retention, conversion — for leadership visibility.
- Mapped the full funnel end to end; identified 3 critical drop-off points and drove fixes that lifted activation by 32%.
- Scaled platform traffic from 100 to 2,000 monthly users (20x); prepared the insights deck that supported due-diligence and acquisition.

Talia Chriqui Consulting

2024 — 2025

Operations & Program Manager

- Ran delivery programs for 8+ SMB clients — scoping, milestones and stakeholder alignment from kickoff through to adoption.
- Designed real-time KPI dashboards in Looker Studio; streamlined workflows, saving an average of 7 hours/week per client.
- Led change management for every rollout — full adoption within 3-4 weeks; improved lead-to-customer conversion by 35%.

Hitech Insurance

2023 — 2024

Business Development

- Managed a CRM prospect pipeline, tracking outreach and conversion at every stage; coordinated a multi-channel plan and hit monthly targets.

Kantar

2021 — 2022

Research Executive

- Planned, coordinated and administered market-research projects end to end; supervised staff, tracked progress and analysed data.

Israel Defense Forces

2017 — 2019

HR Manager - Reserve Duty Program

- Led HR operations and the reserve-duty program; analysed reports in Excel and the IDF CRM, built a VBA tool, and reported monthly to C-level.
